**PART J: Explanatory Comments**

*Use this space to elaborate on any section of this form. If more space is needed, provide as an attachment to this form. Provide explanations for any significant changes in trends/numbers from the previous year's report.*

The totals for lines 19, 20, 21, and 22 include a combination of actual derivative decisions and estimated derivative decisions. The Federal Aviation Administration (FAA) used an 8-week time frame to conduct a sampling and multiplied by 6.5. The rest of the counted decisions made by the Department of Transportation (DOT) represent actual counts of derivative decisions. FAA made an estimated 1,637 TOP SECRET derivative decisions, an estimated 2,099 SECRET derivative decisions, and an estimated 193 CONFIDENTIAL derivative decisions. The remainder of DOT made a combined 75 TOP SECRET derivative decisions, 59 SECRET derivative decisions, and 0 CONFIDENTIAL derivative decisions. Documents used to account for the above totals include Daily Intelligence Summaries, Executive Intelligence Briefs, Intelligence Fliers, CITE Watch Notes, Travel Security Briefings, and emails.

There was an approximate 41% increase in derivative decisions made in FY17 compared to FY16. The increase is based on an increase in intelligence analyst staff and an increase in the number of security briefings created for aviation partners.
